~~Introduction~~

I am not a doctor, however I know much about my local hotels in Svetlogorsk and I want to tell about them

First, I want to talk about "Yantarniy bereg" (Amber Beach). Did you ever hear about health tourism? Because this place is perfect for it. Here you can get diet meals, free health operations, ~~and~~ sea air. However there are some problems that you should know about. Prices are really high. Then, to get to the sea, you need to use a very long ladder. Also rooms are not soundproof that is a trouble.

But if health tourism is not what are you looking for, there is "Grant Palace". It is a five star hotel, right on the beach. Big rooms, great view and delicious restaurants are talking for themselves. Yet, be ready to face even bigger prices than in "Yantarniy bereg". And also you will have to keep your windows closed if you want to sleep or waves will be too loud.

To sum up I want to say that tourism here maybe expensive but you won't regret anything so you should visit our little town!
