Svetlogorsk is a small but very beautiful resort on the coast of the Baltic sea. This city is famous for its amazing landscapes and the huge amount of the amber. There are a lot of hotels and today I would like to tell about some of them.

ECO hotel is a high-tech building, which uses a solar power and is constructed of recycled materials. This hotel is a good choice for visitors, who enjoy the nature and want to spend their holiday in peace and ~~sitence~~ silence.

The "Fallingwater" is ~~an~~ a breathtaking example of how to successfully fuse together a hotel with nature. This building is constructed on ~~the~~ top of the waterfall. The hotel provides swimmingpools and restaurants. People who like active holidays will enjoy it.

All in all, I think that ~~the~~ both hotels are ^{is} a good choice and if you stay in one of them, you will have a great time.
